The History of Pizza

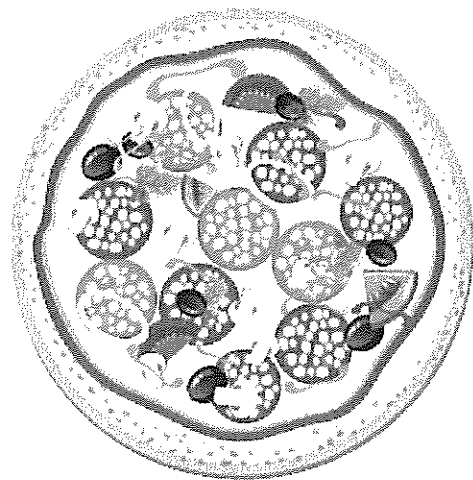

Pizza has been around for thousands of years. Ancient Babylonians first made plain flat bread in mud ovens. The Ancient Greeks then improved the plain flat bread. They added a range of toppings, such as olive oil and herbs.

In the 17th century, mozzarella cheese was developed and added as a topping to the flat bread. Soon after, it was discovered that tomatoes were not poisonous and they too were added as a staple topping.

Eventually Greek and Italian peasants developed the pizza dough we know today.

By the 1800s, pizza became a popular fast food. It was mostly sold as street food by young boys wearing small tin stoves.

In 1830, Antica Pizzeria Port'Alba was the world's first pizzeria to open and is still in business today. In 1889, Queen Margherita went to Antica Pizzeria. The chef, Rafaele Esposito, made her a pizza using the Italian flag as inspiration – red tomato sauce, white mozzarella cheese and green basil leaves. Queen Margherita loved the pizza so much, they named it after her. Pizza is now one of the most popular meals in the world.

Name _____

Date _____

The History of Pizza

1. What was used to make the first pizza?

Who made it?

2. In the 17th century, what two ingredients were added as staple pizza toppings?

3. What was the name of the first pizzeria?

When did it open?

Who was the chef?

4. When and how was the Margherita pizza invented?

The Shoe

Today you are going to write a narrative (a story).

The topic you have been given for your narrative is 'The Shoe'.

Think:

What do you want your story to be about? What kind of shoe is it? Why is there only one shoe? Who does the shoe belong to? What, if anything, is special about the shoe?

Plan:

Plan your writing before you begin and decide who your characters are, the setting of your story, the complication or problem and how it is solved and how the story will end.

Remember to check:

- your spelling and punctuation is all correct
- that you have used sentences
- that you have stayed on topic
- that you have edited your writing.

Narrative Planning Template

- 16) eucalyptus
- 17) corroboree
- 18) flourishing
- 19) friction
- 20) velocity

Monday

1. $61 - 2 =$ _____
2. $15 + 93 =$ _____
3. $13 + 64 =$ _____
4. $12 \times 8 =$ _____
5. $90 \div 9 =$ _____
6. Is 9035 an odd or even number? _____
7. Complete this counting pattern:
31, 41, 51, 61, _____, _____, _____
8. I have 90 balls. Chase has some balls too. Together we have 156 balls. How many balls does Chase have? _____
9. Divide 48 by 8. _____
10. 5 cents + 20 cents + \$1.00 = _____
11. 20 cents + 5 cents + \$2.00 = _____

12. What digital time does the clock show? _____

13. How many weeks is 28 days? _____

14. How many faces does a rectangular prism have? _____

15. Which star has the highest chance of being selected? Black or white? _____

Tuesday

1. $76 - 2 =$ _____
2. $43 + 38 =$ _____
3. $46 + 34 =$ _____
4. $60 \div 10 =$ _____
5. $11 \times 5 =$ _____
6. Write 5743 in words:

7. Complete this counting pattern:
98, 103, 108, 113, _____, _____, _____
8. Cameron has 41 match sticks. Mason has 79 match sticks. How many more match sticks does Mason have? _____
9. Divide 24 by 3. _____
10. \$1.00 + \$2.00 + 5 cents = _____
11. 10 cents + 50 cents + 20 cents = _____

12. If it was 12:50 in the morning, would you write am or pm? _____

13. 360 minutes = _____ hours

14. How many faces does a cube have? _____

15. Which circle has the highest chance of being selected? Black or white? _____

Smooth Moves

Creating a story board

[https://schoolsequella.det.nsw.edu.au/file/ec78a309-6a23-4dec-9df1-01c4196df22b/1/useful friction.zip/useful friction/index.html](https://schoolsequella.det.nsw.edu.au/file/ec78a309-6a23-4dec-9df1-01c4196df22b/1/useful%20friction.zip/useful%20friction/index.html)

Example of a story board

Now create your own story board including a title, drawings, force arrows and descriptive captions.

Forest Friends

Alison Smith

Crouched in his grandmother's attic, Noah puffed dust off the cover of the book he had just found. It was old, bound in brown leather, and cracked with age. The title – *Forest Friends* – sent a strange shiver through Noah's body.

Noah Gatsby was nine years old. He spent most of his free time alone, reading and creating adventures in his head. Life was easier when he was on his own. He didn't understand why others insisted that friends were important.

With trembling hands, Noah flipped open the book's cover. Nothing could have prepared him for what happened next!

Beams of light radiated from the pages. "Whoa!" he cried as his feet began to lift off the ground. Noah rose higher and higher, weightlessly. Then, everything suddenly went black...

Thud! As soon as his body hit the damp ground, Noah awoke to the smell of rotting leaves and the sight of tall trees waving high above. Twigs cracked as he pushed himself up.

I'm in a forest? Noah shook his head and jumped to his feet. A rustle in the bushes nearby made him spin around. To Noah's surprise, an echidna appeared from behind a rock. It sniffed with its long, pointy nose and shook its spiky, quill-covered body. And then the most peculiar thing happened – the echidna began to talk!

"Would you help me?" it said. "I'm afraid I have lost my way in this deep, dark forest. I need your help to find my home."

Noah usually didn't make friends. He usually didn't help others. But the echidna looked so desperate, and the forest so shadowy, that Noah was beginning to feel a little lonely himself.

"Maybe this way," he said, as they ambled along a winding path. Before long, Noah's fear faded. He found himself laughing and singing with the echidna as they navigated through the forest in search of the echidna's family.

Soon, they were deep in the gloom. Just as Noah was starting to lose hope of finding the echidna's family, he spotted something.

"Look!" exclaimed Noah, pointing to a small red door at the bottom of a gnarled tree trunk. "Is that the door to your home?"

The echidna twirled and squeaked with excitement, and then it tapped on the tiny door with its nose. To Noah's delight, the door swung open to reveal Echidna's grandmother.

"Welcome!" echidna's family cried, inviting Noah into their cosy home. "Come and enjoy some warm scones with jam?"

Only after the scrumptiousness of the scones began to fade, did Noah's thoughts turn to his own grandmother. He wondered what she was doing, and whether she missed him.

Echidna saw the sadness in Noah's face. He waddled to a bookshelf and carefully lifted down a heavy brown book with a familiar title – *Forest Friends*.

"Everyone needs a friend sometimes," Echidna whispered in Noah's ear.

Noah opened the book's cover. Sure enough, light streamed from the pages. In a flash, he found himself back

in his grandmother's attic. Noah dusted himself off and straightened his jacket. "Gran, you'll never believe the book I just read!" he called.

That night, as his gran tucked him in, Noah couldn't stop thinking about his wild experience. *Echidna is right*, he thought. *Imagining adventures on my own is fun, but adventures are even more fun with a friend.*

What's Buzzing? Comprehension Task Cards

Forest Friends

Literal Comprehension

1. What adjectives are used to describe the book that Noah finds?
2. How did Noah know they were at the echidna's house?
3. What did the echidna's grandmother do when she opened the door?

Inferential Comprehension

4. Why do you think Noah resisted the idea of making friends with other people at first?
5. When Noah arrived back in the attic, why do you think he called, "Gran, you'll never believe the book I just read!"

Evaluative Comprehension

6. The most exciting part of a narrative is called the 'climax'. What do you think is the climax of this narrative? Explain your answer in detail.

Digital Warriors: Social Footprints

Literal Comprehension

1. What does the boy in the comic want to do with the photo?
2. Why is the girl concerned about this?
3. What alternatives to sending the photograph online does the girl suggest?

Inferential Comprehension

4. Even if platforms say they delete the photo straight away, people can make copies. How do you think this might happen?
5. What is the turning point of the comic (the point when the boy realises and changes his mind)? Use evidence from the text in your answer.

Evaluative Comprehension

6. How do you feel about sharing your personal photos or information online? Explain your answer in detail.

Wednesday

1. $47 + 21 = \underline{\quad}$

2. $38 - 3 = \underline{\quad}$

3. $100 + 8 = \underline{\quad}$

4. $3 \times 6 = \underline{\quad}$

5. $66 \div 6 = \underline{\quad}$

6. Write 4829 in words:

7. Complete this counting pattern:

76, 86, 96, _____, _____, _____

8. Michael has 33 buttons. Paisley has 86 buttons. How many more buttons does Paisley have? _____

9. Share 15 oranges between 3 children. _____

10. $\$2.00 + 5 \text{ cents} + 50 \text{ cents} = \underline{\quad}$

11. $\$1.00 + 10 \text{ cents} + 20 \text{ cents} = \underline{\quad}$

12. What digital time does the clock show? _____

13. How many days are in October? _____

14. A triangle-based pyramid has _____ corners.

15. Which circle has the highest chance of being selected? Black or white? _____

Thursday

1. $40 + 48 = \underline{\quad}$

2. $87 - 4 = \underline{\quad}$

3. $70 + 35 = \underline{\quad}$

4. $5 \times 9 = \underline{\quad}$

5. $24 \div 3 = \underline{\quad}$

6. 2202 is an odd number. True or false?

7. Complete this counting pattern:

58, 60, 62, 64, _____, _____, _____

8. What is the sum of 40 and 73? _____

9. Divide 42 by 2. _____

10. $20 \text{ cents} + 5 \text{ cents} + \$1.00 = \underline{\quad}$

11. $\$1.00 + \$2.00 + 50 \text{ cents} = \underline{\quad}$

12. How many hours from 1 am to 12 pm?

13. How many hours is 480 minutes? _____

14. How many faces does a square-based pyramid have?

15. Which star has the lowest chance of being selected? Black or white? _____

Name _____

Date _____

Year 4 Daily Maths Problems

⑤ Mr. Smith has 28 children in his class. If he wants to give each child 2 sweets each, how many sweets does he need to buy?

⑥ Each chicken coop can hold 8 chickens. What is the maximum number of chickens that can fit in 7 coops?

⑦ Liam collected 36 football cards. Lisa collected $\frac{3}{4}$ of the amount Liam did. How many football cards did Lisa collect?

⑧ A toy train weighs 35 grams. A toy truck weighs 127 grams. How much heavier is the truck than the train?

Name: _____

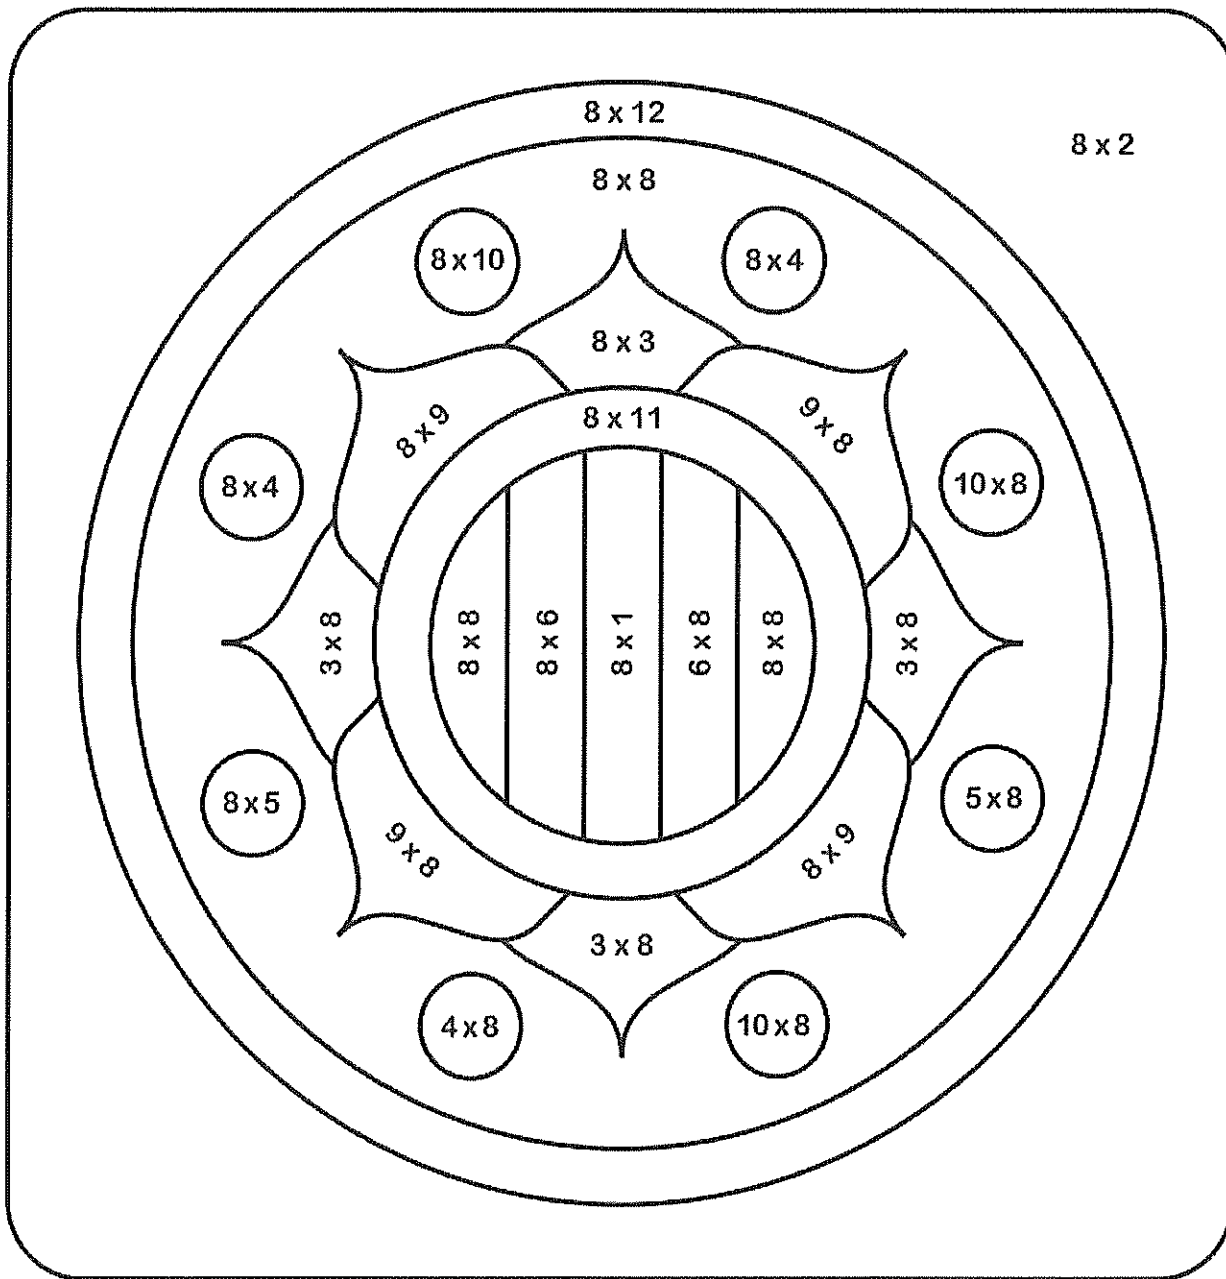

Date: _____

8 x Colour Fun!

Find the answer to the multiplication number sentence and then colour that section the corresponding colour.

8 white

40 yellow

72 pink

16 black

48 dark green

80 light blue

24 red

56 dark blue

88 light green

32 orange

64 purple

96 brown

Australia's Neighbours

What would it be like to live in a different place?

1. The video Australia's Neighbours - Charlotte's Story

2. Think about where Charlotte lives. How is it different to where you live?

3. Write the natural and human features Charlotte talks about in the table below.

Natural Features	Human Features

4. What are the natural and human features where you live? List them below.

Natural Features	Human Features

5. a. Name some features which are the same for where you live and Charlotte lives.

b. Name some features which are different.

How to Make

Method

1. Pour half a cup of PVA glue into a mixing bowl.
2. Add half a teaspoon of baking soda into the same bowl.
3. Mix using the wooden skewer.
4. Add 2–4 drops of food colouring into your mixture. Mix well.
5. Slowly add 1 tablespoon of eye contact lens solution while you continue to mix.
6. Observe what happens to the consistency. Keep stirring until the mixture becomes gooey.
7. Knead the mixture with your hands until it gets less sticky.
8. Add 1 or 2 drops of baby oil (this will stop the mixture getting sticky).
9. Enjoy playing with your slime!

Tips

Make sure the eye contact lens solution includes the ingredient boric acid and is not just a saline solution.

Your slime should keep well for a couple of weeks when stored in an airtight container.

Materials

- When you make slime, you are learning about chemistry.
 - Chemistry is all about how different materials – such as liquids, solids and gases – are made up of tiny atoms and molecules.
 - Slime is neither a liquid nor a solid. It is known as a 'non-Newtonian fluid' because it can be picked up like a solid but can ooze between your fingers like a liquid.
 - When you mix the contact lens solution in this recipe with the PVA glue, a chemical reaction occurs.
- PVA glue (half a cup)
Baking soda (half a teaspoon)
Food colouring (2–4 drops)
Eye contact lens solution with boric acid (1 tablespoon)
Baby oil (1–2 drops)
Measuring cup
Tablespoon
Teaspoon
Bowl
Wooden skewer

How to Make Slime

Literal Comprehension

1. When you make slime, what are you learning about?
2. What is the first thing you need to do?
3. Which ingredient stops the slime getting sticky?

Inferential Comprehension

4. Which ingredients combine to give the slime its texture?
5. In step 6, it says to continue to mix as you add the ingredients. Why is this instruction important?
6. What else could you add to change the colour or texture of your slime?

Evaluative Comprehension

7. Why do you think people might enjoy watching or using slime? Explain your answer in detail.

Name: _____

Date: _____

Adverbs

Adverbs are words that tell us more about verbs. They provide information about how, when and where the action happened.

Adverbs often end in 'ly'. Some examples include:

- softly
- slowly
- quickly
- immediately
- quietly.

1. Choose an adverb from the box to complete the sentences below.

softly	slowly	instantly	heavily	quickly
--------	--------	-----------	---------	---------

- a) The snow fell _____ on the ground.
- b) The mouse ran _____ across the room.
- c) _____, she turned into a toad.
- d) The snail crawled _____.
- e) The elephant stomped _____.

An adverb modifies a verb, an adjective or another adverb. An adverb can be confused with an adjective. If the word describes a noun, it is an adjective. If the word describes a verb or another adverb, it is an adverb.

2. Underline the adverbs in these sentences.

- a) The class walked slowly around the museum.
- b) We eagerly explored the dinosaur exhibition.
- c) Jack looked carefully at each exhibit.
- d) The boys sat outside and ate their lunch quietly.
- e) The students ran quickly to catch the train.

Name: _____

Date: _____

- f) The steam train chugged steadily along the tracks.
- g) The school trip was exhausting.

3. Choose an adverb from the box to complete the sentences below.

very	so	finally	twice
------	----	---------	-------

- a) Dad took a _____ long time to cook dinner.
- b) The rain _____ stopped.
- c) The doorbell rang _____ .
- d) The movie was _____ exciting.

4. Write three sentences of your own that include an adverb to describe a verb or another adverb. Remember to use capital letters and other correct punctuation.

- a) _____
- b) _____
- c) _____

5. Find the adverbs hidden in the word search. The adverbs can be found in a vertical, horizontal or diagonal line. There are six adverbs to be found.

d	f	g	j	v	a	i	q	p	h
s	s	o	f	t	l	y	u	c	a
h	j	l	k	c	z	x	i	d	p
s	l	n	o	x	v	n	c	b	p
w	m	j	k	w	e	r	k	y	i
f	b	h	j	g	l	t	l	t	l
e	s	d	h	f	e	y	y	o	y
f	i	e	r	c	l	y	r	u	q
r	n	c	x	f	e	k	m	g	e
c	a	r	e	f	u	l	l	y	j

Regular and Irregular Shapes (B)

① In square centimetres, measure and compare the areas of these regular shapes.

a) _____ square centimetres

b) _____ square centimetres

c) Which shape has the greatest area? _____

② Name the two shapes that have been joined together to create the irregular shapes below.

a) _____

b) _____

③ Draw a robot by using only four different two-dimensional shapes. List the two-dimensional shapes you have used in your drawing.

1. _____

2. _____

3. _____

4. _____

To the Editor

Dear Editor,

I am writing to share how worried I am about the increasing number of children under the age of thirteen who use social media. School children these days are being pressured by peers who are allowed to use social media. More and more parents are trusting that their children are responsible and mature enough to use social media. What they might not realise is that children's health and wellbeing are at risk by introducing social media too soon.

Firstly, there are now so many types of social media people can join. This variety is becoming addictive. With access to messaging, posting, likes, friend requests and photo filters, there is so much for children to love that many children get irritable or grumpy when their device runs out of battery or is taken away. Children should not rely on social platforms for entertainment or to socialise with friends.

Secondly, children are unsafe when they have direct access to the outside world at home or on social media. A lot of children have handheld devices, such as phones and tablets. When kids are left on their own without parental supervision, who will protect them if they face online bullying? Writing hurtful comments is easy for bullies when they are safe behind a screen. Even adults have trouble handling cruel feedback online, so how do we expect children to react?

Finally, it is important for children to hold on to their childhood. Children are far too eager to act like adults. Often, I see kids worrying about their hair, clothes, friend requests and 'selfies'. These photos are not just inappropriate for children, they are also being uploaded to a place where they will remain forever. When did online popularity become such a contest?

In conclusion, children are not ready for the responsibilities of social media. You need to be careful in the online world, and social media makes children more accessible to people and ideas they should be protected from. The age limit for social media is there for a reason. I urge parents to let their children hold on to their childhood for longer. There will be plenty of time for friend requests and duck-faced selfies when children grow up.

Sincerely,

Tiffany Robson

What's Buzzing? Comprehension Task Cards

Letter to the Editor

Literal Comprehension

1. What is the author's opinion about children using social media?
2. What are the three main arguments presented by the author?
3. Draw a table showing which points you agree with and which you disagree with?

Inferential Comprehension

4. The author uses paragraph starters, such as firstly, secondly, and finally. What would you put in their place to expand language use?
5. *It is important for children to hold on to their childhood!* What is the author implying by making this statement?

Evaluative Comprehension

6. Do you agree or disagree with the author's opinion about children not using social media? Explain your answer in detail.

Friday

1. $75 + 35 =$ _____

2. $66 - 4 =$ _____

3. $92 + 33 =$ _____

4. $8 \times 2 =$ _____

5. $6 \div 6 =$ _____

6. Write the largest number you can using: 7, 8, 5, 3. _____

7. Complete this counting pattern:

91, 98, 105, 112, _____, _____, _____

8. If there were 98 fans at a cricket game, 24 were wearing pink and the rest were wearing orange, how many were wearing orange?

9. What is the product of 3 and 7? _____

10. 20 cents + 50 cents + 50 cents = _____

11. \$2.00 + 5 cents + \$1.00 = _____

12. How many minutes is 240 seconds? _____

13. How many weeks is 49 days? _____

14. How many faces does a triangular-based prism have?

15. Which circle has the highest chance of being selected? Black or white? _____

Square Centimetres

1. Use the one square centimetre grid paper to design shapes of the given areas.

a 4 square centimetres	b 6 square centimetres	c 12 square centimetres

2. Sketch shapes that have an area of 7 square centimetres. Two examples have been given below.

3. Mrs Krishan has placed some centicubes on these shapes to help estimate their areas. Estimate and then measure the area of each shape.
